

Coding Exercise – Find Odd/Even Number

- Write a JavaScript `for` loop that will iterate from 0 to 10. In each iteration, check for the current number. if current number is **even**, display “X is Even” or if it is **odd**, display “X is Odd” . Use `document.write` for display.

Output:

0 is Even
1 is Odd
2 is Even
3 is Odd
4 is Even
5 is Odd
6 is Even
7 is Odd
8 is Even
9 is Odd
10 is Even
